

## 581275 (L-PWP03A) 3 W Cabinet Loudspeaker

- ✓ Water resistant cone
- ✓ Powerful and intelligible audio performance
- ✓ Suitable for humid condition
- ✓ Stylish design
- ✓ Simple power setting
- ✓ High strength and fire resistant ABS enclosure
- ✓ Easy installation and cost effective
- ✓ CE and RoHS compliant

### General

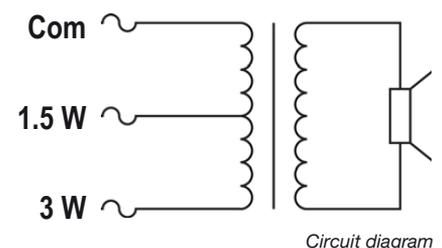

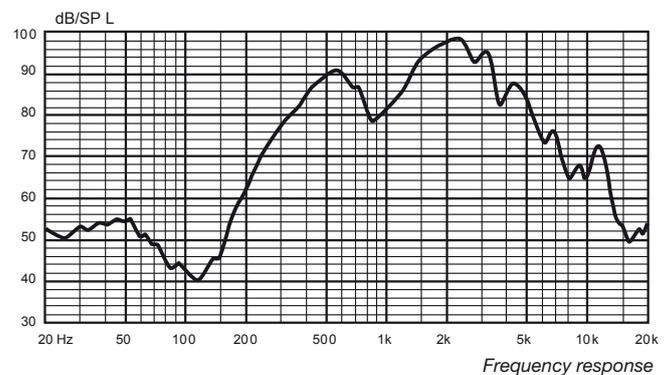

L-PWP03A is a 3 W, cost-competitive and multi-purpose loudspeaker designed for surface wall mount. It is ideal for distributing sound evenly. The loudspeaker is supplied with a back box and has a built-in protection to ensure a longer operating life. The water resistant cone unit guarantees a clear acoustic performance free from unwanted interference under humid conditions. Stylish, compact and unobtrusive design makes it suitable for general public address applications such as shopping malls, supermarkets, and educational institutes, office buildings, hotels and restaurants. The loudspeaker is CE and RoHS compliant.

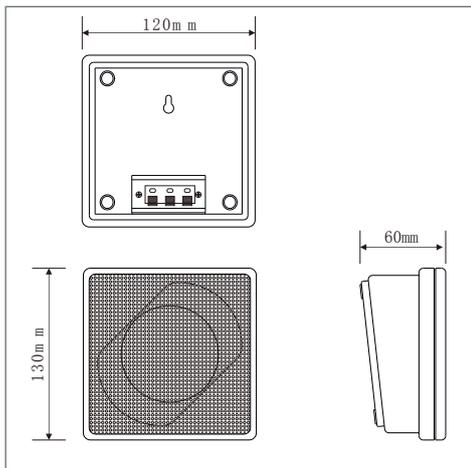

### Mounting

A keyhole in the rear panel provide easy and quick wall mounting by only one screw.

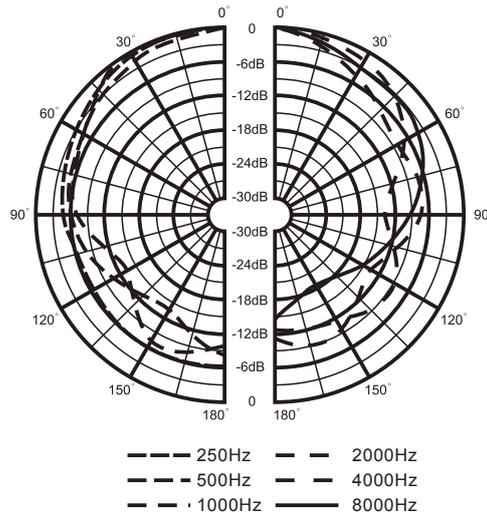

### Power setting

The unit is equipped with a spring type terminal on the back which allows easy connection by simply tuck and press as well as power tapping, saving both time and cost.
